

Our new website is online!

We are proud to announce the launch of our new website.

SHERPA Engineering has grown and evolved over the past 25 years, and we felt it was time for a change.

Our website has been completely redesigned, with a more modern look, better content and a more ergonomic interface. We also present our new visual identity, with a redesigned logo to reflect who we are today and to support the dynamics of the company.

SAVE THE DATE!

Founded in 1997, SHERPA Engineering is celebrating its 25th anniversary this year.

To celebrate this event, we are organising an anniversary party on Thursday 23 March 2023 at the Musée des Arts et Métiers.

Make a note of the date in your diary now!

New Benchmark simulators are coming!

After the Volkswagen ID3 and the Fiat 500e, it is now the turn of the BMW iX3 and the Hyundai Ioniq 5 to join our digital library of benchmark simulators.

SHERPA Engineering works with partners who generate data on recent vehicles. From this data, it recreates true digital twins, offering a flexible, fast, customisable and economical complement to the benchmark studies of electric vehicle manufacturers.
